

Reciprocal Teaching Model

Given the grade, subject, and topics that you currently teach (or plan to teach), collect appropriate material to create a current model for reciprocal teaching. If you plan to teach at a level below grade 3, create your own model for a grade 3 class or above. You will need to model each step and provide a strong outline for a student leader. Find a passage or suitable listening activity and complete this outline for your students.

Passage:
